

Thursday 15th July, 2015

Summary: CICASP Seminar 09
Practice Presentations with Feedback: Session 2

At this seminar, students gave practice presentations in preparation for the 31st Primate Society of Japan Annual Meeting in Kyoto. Duncan and Rachel gave talks, and Camille presented her poster. All presenters received praise on specific aspects of their presentation as well as suggestions for improvement. Seminar 11 will provide a further opportunity for practice presentation.

Note: There will be no CICASP Seminar next week due to the PSJ and PWS conferences in Kyoto.

Wednesday 29th July, 2015

Outline: CICASP Seminar 10
Asking and Answering Questions after a Presentation: Student Practice 4

The CICASP Seminar, the week after next, will be a continuation of the previous topic: 'Asking and Answering Questions'. This will give all the students who have already prepared and sent in talks the opportunity to present them. These students will face the challenge of presenting a short introduction to themselves and their research. They will then face three 'good' and three 'bad' questions from the audience. The interactive style of the seminars allows practice in a friendly, relatively relaxed and supportive environment, readying you for presenting, asking and answering questions at conferences.
