

## CICASP Seminar in Science Communication: Summary & Outline

Wednesday 10th October, 2015

### **Summary: CICASP Seminar 12 Semester 2: Introduction and Overview**

At this seminar, the CICASP Team covered the aims of the CICASP Seminars in Communication and gave an overview of the upcoming topics for this semester. CICASP Seminars usually run in blocks of 3-4 sessions. Each block is led by one particular member of the CICASP Team and is focused on one specific skill or set of skills.

Block 1. Paper Publishing and Peer Review (Fred Bercovitch)

Block 2. Mini-debates: Three hot topics (Claire Watson)

Block 3. Giving Talks: Presenting is Performing (Andrew MacIntosh)

Wednesday 21st October, 2015

### **Outline: CICASP Seminar 13 Publishing Papers and Peer Review**

The seminars are designed to be interactive; with the focus on active learning. Next week, Fred will lead the first of three Seminars focussed on the process of getting a paper published after you have submitted your manuscript to a journal. If you have had any issues with the review process, please bring those to the seminar and we can discuss them during this theme.
