<p>Young researchers and curators of PWS, WRC and JMC ran a booth at Kids Jamboree in Marunouchi to provide primary school students an opportunity to learn about research on primates and all other wildlife. Children got an physical experience of fieldwork and learned about the ability of primates. Besides, we gave a lecture about research on wildlife and our experience of fieldwork. This was a great opportunity for us to inform about the interest and necessity of research on wildlife widely to children and society.</p>
