

Research Activity Report
Supported by “Leading Graduate Program in Primatology and Wildlife Science”
 (Please be sure to submit this report after the trip that supported by PWS.)

2015. 6, 30

Affiliation/Position	Graduate School of Science/M1
Name	Kyohei Hino

1. Country/location of visit
Japan/Kyoto
2. Research project
Experiments with Genome Science
3. Date (departing from/returning to Japan)
2015 . 6 . 1 – 2015 . 6 . 9 (9days)
4. Main host researcher and affiliation
Dr.Inoue, Assistant Professor at Kyoto University
5. Progress and results of your research/activity (You can attach extra pages if needed)
Please insert one or more pictures (to be publicly released). Below each picture, please provide a brief description.
<p>During this visit, I conducted research on DNA analysis of Japanese macaque in Yakushima by using their fecal samples In this study our objective were to mesure whether there is any significant difference between sex,age,individual of Iapanese macaque toward the ratio of intact seeds(Yamamomo eaten by them) Our group presented these result at 4th International Seminar on June 9th</p> <p>Through this experience, I understood the usefulness of DNA analysis, and this experience expanded the possibilities of my future research</p>
