|-----------------------------|---|
| | 2014. 08, 19 |
| Affiliation/Position | Wildlife Research Center/ Part-time research fellow |
| Name | Yayoi Yoshida |

| |
|---|
| 1. Country/location of visit |
| Alusha, Tanzania |
| 2. Research project |
| CCTBio and AA project, The 3 rd international workshop on tropical biodiversity and conservation |
| 3. Date (departing from/returning to Japan) |
| 2014. 09. 20 – 2014. 09. 30 (10 days) |
| 4. Main host researcher and affiliation |
| Tanzania Wildlife Research Institute, Dr.Keyyu |
| 5. Progress and results of your research/activity (You can attach extra pages if needed) |
| Please insert one or more pictures (to be publicly released). Below each picture, please provide a brief description. |
| <p>During this visit, I conducted to hold a workshop and present a research poster on Alusha, Tanzania. We were able to discuss about each studies with many foreign researchers. In the inspection to ngorongoro savanna, I observed some kind of wild animals and birds, vegetation. In the inspection to zanzibal coast, I observed two groups of Indo-Pacific bottlenose dolphin. I felt that these dolphins had both characteristics of Bottlenose dolphin and same spices around Japan coast.</p> <p>I used this opportunity to visit and stay in Tanzania.</p> <p>Through this experience, I have developed a clear vision on the savanna ecosystem and Tanazania history, which will be of great help in the future activity.</p> |
