

Research Activity Report
Supported by “Leading Graduate Program in Primatology and Wildlife Science”
 (Please be sure to submit this report after the trip that supported by PWS.)

	2014. 11, 08
Affiliation/Position	Asian and African Area studies, African area studies /M1
Name	Aya Yokotsuka

1. Country/location of visit	Kyoto University PRI
2. Research project	Study on Genome science training course
3. Date (departing from/returning to Japan)	2014. 10. 27 – 2014. 10. 31 (5days)
4. Main host researcher and affiliation	Dr. Professor Imai and Kishida at PRI Institute and Wildlife Research Center, Kyoto University
5. Progress and results of your research/activity (You can attach extra pages if needed)	<p>Please insert one or more pictures (to be publicly released). Below each picture, please provide a brief description.</p> <p>I analyzed genome types of animal species that were on Oitabi surface. We did DNA extraction, after that we did PCR and cycle sequencer. We analyzed animals by using a software and Database on the internet. We confirmed that Japanese macaques, deer and a insect ate Oitabi through genome analysis.</p> <p>The genome training course was very hard for me but It was interesting and it will be helpful for my research.</p>
