<p>I joined the inter lab studies of biological science on 6th and from 8th to 11th April. The aim of this course is for new students to understand the diversity of studies in biological science in Kyoto University. The schedule is listed below.</p> <p>2015/4/6 Welcome lecture (at North Campus in KU) 2015/4/8 Research Reactor Institute, Seto Marine Biological Laboratory 2015/4/9 Seto Marine Biological Laboratory, Shirahama Aquarium 2015/4/10 Kyoto City Zoo, Center for Ecological Research 2015/4/11 Primate Research Institute, Japan Monkey Center</p> <p>We took lectures about the institute and the studies in every institutes before seeing them. It was my first visit to the institutes except PRI. I could understand that there are many study objects and many study methods though in one section, biological science. It was a good opportunity to broaden my horizon about studies and also to have a relationship with other students.</p>
