

**Research Activity Report**  
**Supported by “Leading Graduate Program in Primatology and Wildlife Science”**  
(Please be sure to submit this report after the trip that supported by PWS.)

2017. 05, 22

<b>Affiliation/Position</b>	Wildlife Research Center/M1
<b>Name</b>	Moe Yanagi

<b>1. Country/location of visit</b>
Japan. Shirahama (Seto Marine Biological Laboratory); Kyoto (Kyoto City Zoo); Otsu (Center for Ecological Research); Inuyama (Primate Research Institute & Japan Monkey Centre)
<b>2. Research project</b>
Interdepartmental Exchange ("inter-lab")
<b>3. Date (departing from/returning to Japan)</b>
2017. 04. 04 – 2017. 04. 09 (6 days)
<b>4. Main host researcher and affiliation</b>
Department of Biological Sciences, Kyoto University
<b>5. Progress and results of your research/activity</b> (You can attach extra pages if needed)
Please insert one or more pictures (to be publicly released). Below each picture, please provide a brief description.
<p>I joined “Inter-Lab” from 4, April to 9, April, and visited many facilities of Division of Biological Science of Kyoto University. Our schedule was as follows:</p> <p>2017/4/4: Yoshida Campus, Kyoto. Orientation, welcome lectures and welcome party. 2017/4/5: Seto Marine Biological Laboratory, Shirahama. 2017/4/6: Seto Marine Biological Laboratory, Shirahama. (2017/4/7: Entrance Ceremony, Kyoto.) 2017/4/8: Kyoto City Zoo, Kyoto; Center for Ecological Research, Otsu. 2017/4/9: Primate Research Institute and Japan Monkey Centre, Inuyama.</p> <p>Through this experience, I could get to know the research facilities at Kyoto university. All facilities were organized well, and all researchers at these facilities were wonderful. I was happy to touch these cutting-edge research through this experience. Moreover, it was great opportunity to communicate with other students who belongs to department of biological science of Kyoto university. Because there are a lot of laboratory in this department, and there is no opportunity to face-to-face with them except this event. We exchanged our experience and interesting research topics each other. I hope we can keep in touch and collaborate with scientist of different fields in the future.</p>
