5. Progress and results of your research/activity (You can attach extra pages if needed)

Please insert one or more pictures (to be publicly released). Below each picture, please provide a brief description.

I participated in the Marunouchi Kids' Jamboree 2018. In this event, I made an exhibition of wildlife photographs and draw a stamp board to collect stamps in each sections of the room. It was the first time for me to make a work for public people, so I realized a difficulty of making an illustration that people can easily understand. It was a great opportunity to improve my illustration skills. It seemed that children were truly enjoying the exhibition and lectures. Also, this stamp board motivated children to participate in every section to collect stamps and presents, thus this system may be applicable to other exhibitions for children, as well as the future Kid's Jamboree.

A stamp board I made
