

Research Activity Report
Supported by “Leading Graduate Program in Primatology and Wildlife Science”
 (Please be sure to submit this report after the trip that supported by PWS.)

2019.

Affiliation/Position	Wildlife Research Center/M1
Name	Hiroto Yoshimura

1. Country/location of visit

Tokyo

2. Research project

Marunouchi Kids Jamboree

3. Date (departing from/returning to Japan)

2019. Aug. 12th ~ 2019. Aug. 16th

4. Main host researcher and affiliation

Tokyo International Forum

5. Progress and results of your research/activity (You can attach extra pages if needed)

Please insert one or more pictures (to be publicly released). Below each picture, please provide a brief description.

I was involved in Marunouchi Kids Jamboree from Aug 13th to Aug 15th. I ran exhibition focusing on snow leopards’ ability to jump and hide. As for exhibition about jumping, children appeared to enjoy jumping with a life-sized photograph of snow leopard. Participants experienced snow leopards’ palm size and jumping height. In addition, all participants enjoyed “Find the snow leopard” regardless of their age. Through this exhibition, I was able to inform them about the difficulty to find wild animals or snow leopards’ coat color. Outreaching is one of the important aspects of wildlife science. This event was a good opportunity to think about how to inform the attraction of wildlife.
