

Poster Session (16:50-18:20)

	Title	Presenter	Affiliation
Poster 1	Phylogeography of the Japanese ratsnake, <i>Elaphe climacophora</i> (Serpentes: Colubridae)	Jun Moriyama	Graduate School of Science, Kyoto University
Poster 2	Maintaining behavioural diversity of captive chimpanzees: how chimpanzees acquire new behavioral patterns in a zoo?	Yumi Yamanashi	Wildlife Research Center of Kyoto University
Poster 3	Vocalization of killer whales (<i>Orcinus orca</i>) off eastern Hokkaido, Japan	Kaede Mizukoshi	Wildlife Research Center of Kyoto University
Poster 4	Diet analysis of grasscutter (<i>Thryonomys swinderianus</i>) using next generation sequencing	Christopher Adenyo	Wildlife Research Center of Kyoto University
Poster 5	Personality among clone geckos (<i>Lepidodactylus lugubris</i>) and increase of its variation throughout development	Osamu Sakai	Department of Zoology, Kyoto University
Poster 6	What influences on peaceful coexistence with bonobos in Wamba region, Drcongo	Aya Yokotsuka	Graduate School of Asian and African Area Studies, Kyoto University
Poster 7	Analysis of human DIMIT1L and TFB1M homologous to KsgA, a DNA glycosylase in <i>E.coli</i>	Yuichiro Hayashi	Laboratory of Stress Response Biology, Kyoto University
Poster 8	Defence mechanism against apurinic/apyrimidinic sites in <i>Ciona intestinalis</i> .	Masashi Funakoshi	Laboratory of Stress Response Biology, Kyoto University
Poster 9	Genetic polymorphisms of candidate genes relating behavior traits in zebra species	Hideyuki Ito	Wildlife Research Center of Kyoto University
Poster 10	FUdR extends lifespan of the AP site repair mutant in <i>C.elegans</i>	Akira Yamasashi	Laboratory of Stress Response Biology, Kyoto University
Poster 11	Gravid snakes actively forage for rare, toxic prey	Yosuke Kojima	Department of Zoology, Kyoto University
Poster 12	Identification of neurons involved in planarian feeding behavior	Seira Shimoyama	Graduate School of Science, Kyoto University
Poster 13	Development of 20 microsatellite markers for the endangered Japanese golden eagle (<i>Aquila chrysaetos japonica</i>) using next generation sequencing	Yu Sato	Wildlife Research Center of Kyoto University
Poster 14	Interventions and post-conflict affiliations by third party toward victim of conflict in bottlenose dolphins	Hiroko Sakuragi	Wildlife Research Center of Kyoto University
Poster 15	Utilization of mineral contained in salt licks by mammals at Belum-Temengor rainforest Complex, Malaysia	Yuko Tawa	Wildlife Research Center of Kyoto University
Poster 16	Monogamy in large rodents: an example of the long-tailed porcupine	Aoi Matsukawa	Wildlife Research Center of Kyoto University
Poster 17	Bed tree preferences among wild chimpanzees in Mahale	Koichiro Zamma	Graduate School of Asian and African Area Studies, Kyoto University
Poster 18	A 26-year study of ring-tailed lemurs (<i>Lemur catta</i>) at Berenty Reserve, Madagascar	Shinichiro Ichino	The Center for African Area Studies, Kyoto University
Poster 19	Get through to the neighbors: Symbolic understanding of heterospecific communication signals.	Daisuke Muramatsu	Wildlife Research Center of Kyoto University
Poster 20		Participants of Genome Training Course	
Poster 21		Participants of Genome Training Course	
Poster 22		Participants of Genome Training Course	
Poster 23		Participants of Genome Training Course
