

Research Activity Report
Supported by “Leading Graduate Program in Primatology and Wildlife Science”
 (Please be sure to submit this report after the trip that supported by PWS.)

2016.06.12

Affiliation/Position	Graduate school of Asian and African Area Studies / M1
Name	Ryoma OTSUKA

1. Country/location of visit
Fujisawa, Kanagawa prefecture
2. Research project
The 53 rd Annual Meeting of Japanese Association for African Studies
3. Date (departing from/returning to Japan)
2016.06.04-2016.06.05 (2 days)
4. Main host researcher and affiliation
College of Bioresource Science, NIHON UNIVERSITY / Japanese Association for African Studies
5. Progress and results of your research/activity (You can attach extra pages if needed)
Please insert one or more pictures (to be publicly released). Below each picture, please provide a brief description.
<p>On 2016/06/04 and 2016/06/05, I visited College of Bioresource Science, NIHON UNIVERSITY which is in Fujisawa, Kanagawa Prefecture to attend the 53rd Annual Meeting of Japanese Association for African Studies(JAAS).</p> <p>2016/06/04 : go to Fujisawa from Kyoto / First day of the 53rd Annual Meeting of JAAS. 2016/06/05 : Second day of the 53rd Annual Meeting of JAAS /</p> <p>Many japanese researchers who have various research backgrounds attend the Annual Meeting of JAAS. I could listen many interesting presentations at the 53rd Annual Meeting of JAAS. Some of them had a direct relation to my research and some didn't. But I learned many things from all presentation I listened. For example, there was a forum titled 'New perspectives of Community-based Tourism in Africa: How Local People Use their Natural and Cultural Resources in Tourism', which was main interest of my research. On the other hand, I listened a presentation on ethnic conflicts, refugees problem, climate change, lifestyles of hunter-gatheres, and so on. I was really interested these presentations and realized that we should know more about other field of study.</p> <p>Through this experience, I also found that discussion or having talk with other participants can be more important than just listening their presentation. Next time, I will make presentation at the annual meeting of JAAS and discuss with many researchers positively.</p>
