<p>This trip was aimed (1) to support a tour guide to Kyoto City Zoo and Kyoto Aquarium with guest researchers from abroad and (2) to participate Symposium, Support for African / Asian Great Apes 20 (SAGA20).</p> <p>At Kyoto City Zoo and Kyoto Aquarium, we could have a good time because of staffs’ warm cooperation. In the aquarium, we could see the backyard, which visitors cannot see. Even though we could enjoy the tour, guest researchers may have some troubles due to my poor English conversation skills. I ‘ll try to improve my skills more from now on.</p> <p>At SAGA20, I could listen to professors, who have been contributing SAGA since its establishment, about initiation of SAGA. In the poster session, I gave a presentation. The topics of other presentations were not familiar to me, which interested me. I wish I could have listened to these presentations. Some undergraduates and high school students participated the symposium, which I thought a good point of SAGA symposia.</p>	 <p>Fig 1. Chimpanzees at the zoo. We listened to the talk on them including cognitive experiments with them.</p>
<b>6. Others</b>	I thank to staffs of Kyoto City Zoo and Kyoto Aquarium for their kind cooperation.
